

A diagram of a circular structure, possibly a cell or a microorganism. It features a large outer circle labeled '2'. Inside this circle, there is a central shaded rectangular region labeled '16'. Surrounding this shaded region are several small circles, some of which are labeled '4'. The circles are arranged in a cluster, with some overlapping the shaded region.

A diagram of a circular game board. A large circle is labeled 2. Inside the circle, a cluster of small circles is arranged in a roughly rectangular shape. A line points from the number 4 to the top of this cluster. A line points from the number 16 to the bottom-left of the cluster. A line points from the number 18 to the right side of the cluster. A rectangular box labeled 'PLAY' is positioned in the center of the cluster of small circles.
